

Multi-channel flat jet nozzles for air Whisperblast®, plastic versions Series 600.130.S2/56

Extremely
silent!

Series 600.130.S2/56

The multi-channel flat jet nozzles of the 600.130 series generate a continuous powerful air stream. The noise level and air consumption remain low even at higher air pressures. Since the nozzles are made completely of POM or natural PP, they are also suitable for applications in the food industry or electroplating sector.
