

Semi-custom order series

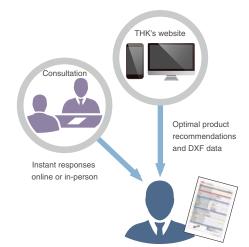

GLM-AP

Linear Motor Actuator

Three Key Features

- Frequently requested specifications are now standard options, making it even easier to select a linear motor actuator.
- Choosing scaleless specifications will reduce the cost of the linear motor actuator.
- Quotes and CAD data are available in as little as one day.

Applications

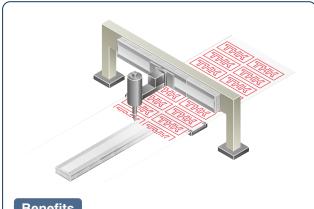

Liquid crystal

Electronic components

Automobile components

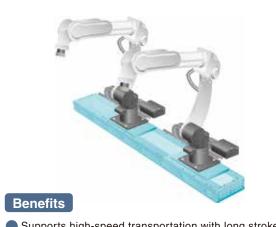

Medicine

General industry

Benefits

- Highly consistent speed
- Compatible with multiple sliders

- Supports high-speed transportation with long strokes
- Compatible with multiple sliders

Benefits

- High positioning acuracy
- Capable of rapid acceleration/deceleration
- Low dust generation

Benefits

- Supports high-speed transportation with long strokes
- Highly suited for clean environments
- Compatible with multiple sliders

Model Number Configuration

Model	Number of sliders/ Count-up direction ¹	Stroke ²	Encoder	Driver ³	Cover	Sensor ⁴	Cable chain	Cable length 5	LM Guide option	Grease/ Anti-rust oil 6
GLM15AP	SL	0300	Α	M4	С	2	Q1	03	D	EE
GLM15AP	1 S type slider/	(Example) 0300: 300 mm	A: Absolute	M4: Mitsubishi J4 SSCNET III/H	C: Cover	2: Photo sensor	Q1: igus E6.29	03: 3 m	D: AP-C coating	E: AFE-CA/ Anti-rust oil
GLM20AP			L: Scaleless		N: None	H: Proximity sensor A	N: None	05: 5 m	N: None	
	Slider Type:	GLM15AP: 0120 to 1940:		MN: No driver (To be prepared by the customer) T: THK TDP		L: Proximity sensor B		10: 10 m		EE: AFE-CA
	GLM15AP: S, M	120 mm to 1940 mm GLM20AP:				J: Proximity sensor C	15: 15 m	10. 10 111	Anti	F: AFF/
	GLM20AP: S, M, L							15: 15 m		Anti-rust oil
	Number of Sliders:					M: Proximity sensor D		N: None		FF: AFF
	1 or 2					Ni. Niama				J: AFJ/
	Count-Up					N: None				Anti-rust oil
	Direction:									JJ: AFJ
	L: Left									00.7.1.0
	R: Right									

¹ Contact THK for details about the count-up direction.

Proximity sensor B: B contact x3

Proximity sensor C: A contact x1, B contact x2

Customization Overview

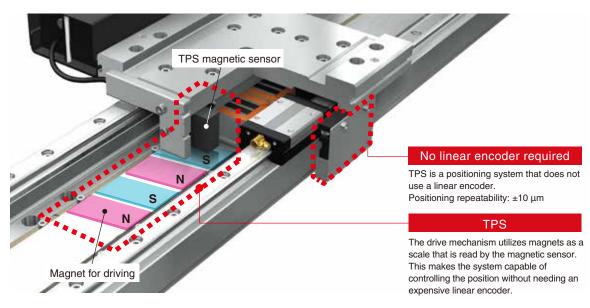

I: Inward (for 2 sliders)

O: Outward

(for 2 sliders)

Me	echatronic part	Control unit			
Specification	Linear encoder	Driver	Communication method		
	Scaleless	MR-J4 (Mitsubishi)	SSCNET III/H		
GLM15AP GLM20AP	Scaleless	TDP (THK)	Pulse		
	Absolute	MR-J4 (Mitsubishi)	SSCNET III/H		

Scaleless Specifications

o.z. LIN-TECH HENNLICH s.r.o. Českolipská 9, 412 01 Litoměřice

 $^{^{\}rm 2}$ Please refer to the back page for information about the stroke. Contact THK for details.

 $^{^3}$ For MN, please prepare a Mitsubishi servo amplifier. Contact THK for details about the amplifier model to order.

⁴ Proximity sensor A: A contact x3

Proximity sensor D: A contact x1, B contact x2 (PNP)

⁵ The cable length refers to the distance between the mechanical part and the driver.

⁶ AFE-CA: For clean room use (low dust generation) AFF: For clean room use (stable rolling resistance)

AFJ: General environments and high-speed applications (low sliding resistance when driven at high speeds)

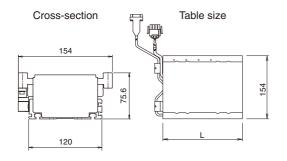

Product Specifications

		GLM	15AP	GLM20AP			
		S	M	S	М	L	
Chucke (man)	1 slider	300 to 1940	220 to 1860	130 to 2650	160 to 2500	200 to 2360	
Stroke (mm)	2 sliders	120 to 1760	200 to 1600	240 to 2400	120 to 2100	200 to 1820	
Maximum thrust (N)		152	283	312	573	893	
Rated thrust (N)		42	89	108	202	320	
Maximum speed (mm/s)	30	00	4000 ¹				
Positioning repeatability (±0.001(absolute)/±0.01(scaleless)						
Maximum load capacity ²	20	39	42	79	125		

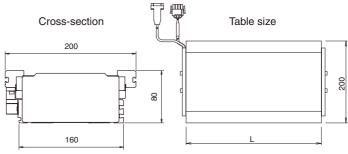

¹ When selecting M4 (Mitsubishi MRJ4) or MN (No driver) for the driver and A (Absolute) for the linear encoder, the maximum speed will be 4 m/s. The maximum speed for any other combination will be 3 m/s.

Full-Cover Type Introduction

● Full-Cover ULM15/20

This product is perfect for using near devices that generate dust or in equipment that needs to be completely covered in order to ensure worker safety.

Contact THK for details.

² The maximum load capacity is the weight the system can transport at an acceleration of 0.5 G and a maximum achieved speed of 1 m/s. Changing the usage conditions will affect the maximum load capacity. THK can perform this calculation upon request.
