

Rotating cleaning nozzle »MiniSpinner 2« Series 5M3

NEW

Series 5M3

The MiniSpinner 2 convinces with its popular design and effective cleaning. The MiniSpinner 2 is made entirely from stainless steel and designed for use also at high temperatures. It is available with many different flow rates and spray angles.

	Max. tank diameter [m]	0	1	2	3	4	5	6	7	8	9
--	------------------------	---	---	---	---	---	---	---	---	---	---

Materials
Stainless steel 316L

Max. temperature
250 °C

Recommended operating pressure
2 bar

Installation
Operation in every direction is possible

Filtration
Line strainer with a mesh size of 0.1 mm/170 Mesh

Bearing
Double ball bearing made of stainless steel 316L

Adapter
1/2 BSPP and 3/4 BSPP are compatible with HygienicFit

Overview of the tank diameter, depending upon the pressure of series 5M3

E = narrowest free cross-section
NPT, slip-on connection and weld-on versions on request

The maximum tank diameter shown above applies for the recommended operating pressure and is indicative only. The cleaning result is also affected by the type of soiling.

Information on operation

- Operation with compressed air only for short-term usage. Operation above the recommended operating pressure means higher wear and smaller droplets. This might have adverse effects on the cleaning result.

Slip-on information

- Split pin made of 316L SS is included. (Ordering no.: 05M.330.1Y.00.00.0).
- Depending on diameter of the adapter the flow rate can increase due to leakage between connecting pipe and rotating cleaning nozzle.
- Minimum insertion diameter (with mounted split pin) is 59 mm.

Example of ordering with ATEX approval.
FDA and (EG) 1935/2004 conform.
Only material 316L SS available with ATEX approval.
