

Compact Caged Ball LM Guide Radial Type

SSR

Caged version of SR model that achieves long-term maintenance-free operation.

SSR30XSB	28	31	23	80	7×11×9	34.8	34.4	0.186	1.12	0.116	0.711	0.376	0.52	4.3
SSR35XSB	34	33	27.5	80	9×14×12	48.3	46.7	0.295	1.77	0.184	1.12	0.615	0.77	6.4

Static permissible moment M_A, M_B, M_C : static permissible moment value with 1 LM block
 M_{A2}, M_{B2} : static permissible moment value with 2 blocks closely contacting with each other

Model number coding

(*1) Contamination protection accessory, (*2) Radial clearance symbol, (*3) Accuracy symbol,
(*4) Symbol for No. of rails used on the same plane
For details, refer to THK general catalog or THK website.

This model number indicates that a single-rail unit constitutes one set.
(i.e., required number of sets when 2 rails are used in parallel is 2 at a minimum.)
Those models equipped with QZ Lubricator cannot have a grease nipple. When desiring a grease nipple for a model attached with QZ, contact THK.

For models SSR15 and 25, two types of rails with different mounting hole dimensions are offered (see Table below).
When, replacing this model with model SR, pay attention to the mounting hole dimension of the LM rail. Contact THK for details.

Model No.	Standard rail	Semi-Standard rail
SSR15	For M4 (Symbol Y)	For M3 (No symbol)
SSR25	For M6 (Symbol Y)	For M5 (No symbol)
