

HENNLICH

ENGINEERING

HENNLICH - GOOD IDEA

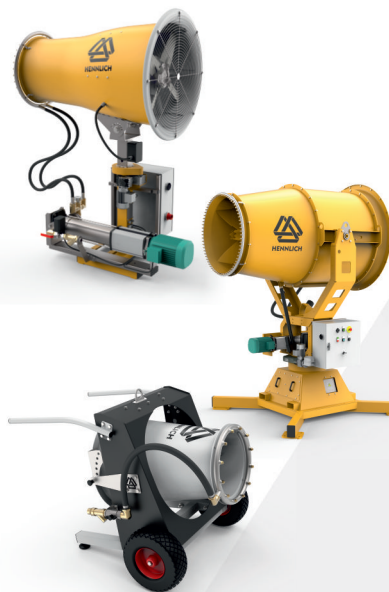

TELESCOPIC LOADING SPOUTS

- **Dust-free loading of dry, dusty bulk solids**
 - enclosed trucks and railcars
 - shiploading
 - stockpiles

FOG CANNONS

- **Fog cannons**
 - dust reducing from outdoor dumps, demolition, and other outdoor sources of dust
 - odor control
 - material cooling
 - throw from 10 to 100 meters

DEDUSTING AND AIR FILTRATION

- **Filters for storage silos, conveyor exhaust systems, and dusty industrial operations**
- **Filtration of polluted air in industrial facilities**
- **High-temperature filtration**
- **Spare filter elements (hoses, sinter-plates, cartridges)**

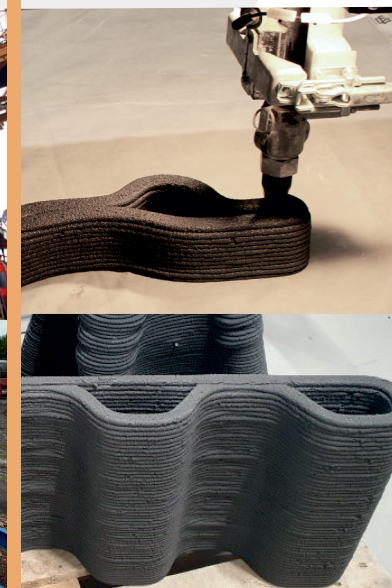

ENERGY CHAINS

- **Design and supply of energy chains**
 - long travels up to 800 mts
 - vertical and horizontal applications
 - round applications
 - heavy covering for outdoor systems
 - electronic overload monitoring

3D PRINT

- **3D print GeoPrint®**
 - material for printing building components
- **3D printers (MINI, MEDIUM, MAXI)**
 - for a wide range of options and sizes of print areas
